ANNUAL REPORT

OF THE

ADJUTANT GENERAL

OF

MARYLAND.

TRANSMITTED TO THE

Governor and Commander-in-Chief,

In Pursuance of Law,

FOR THE YEAR 1879.

ANNAPOLIS:

From the "Maryland Republican" Steam Press.

1879.

REPORT.

GENERAL HEADQUARTERS,

STATE OF MARYLAND,

ADJUTANT GENERAL'S OFFICE,

Annapolis, January 1st, 1880.

To His Excellency, JOHN LEE CARROLL,

Governor and Commander-in-Chief:

SIR:—I have the honor of making the following report from this department for the year 1879:

The Maryland National Guard is in better condition than it has ever been. It consists of one full regiment and eight independent companies of infantry, four companies of cavalry and one section Gatling gun battery.

During the past year the Fifth Regiment has been thoroughly equipped, and six companies of infantry have been supplied with new uniforms, overcoats and knapsacks.

Each infantry organization is armed with breech-loading Springfield muskets, calibre 50., and the cavalry with Colt's revolvers and breech-loading magazine carbines.

The available force of effectives is 1,400 men, and all are in condition for active service should they be needed.

With but one exception every commanding officer saw service during the late war, and the character of officers and men is such as to command the respect of the best citizens of the State. Numerous applications for new companies have been made from all parts of the State, notably from Western Maryland, and the Garrett County Guard has been uniformed and equipped by the citizens of that county.

Information in detail will be found in the appendices of the disbursement of the appropriation for the past two years, the register of the present military force, and of trial of Gatling gun.

The repeal of the State pension laws and the passage by Congress of a Bill allowing pensions to all soldiers of the war of 1812 who served fourteen days, or were in an engagement, instead of requiring sixty days' service as formerly, or to the widows of said soldiers, has greatly increased the clerical work of this department, as all applications for evidence of service are made to this office. There has also been a marked increase in the past two years in number of applications for copy of "muster roll and discharge" of soldiers of the late war who claim to be entitled to State bounty under existing laws, and a considerable sum has been paid from the Treasury in liquidating the claims of those who have perfected their evidence. In view of the fact that twelve years have elapsed since all such claims had to be filed, it would appear that ample time had been given to collect all necessary evidence, and I respectfully suggest that it would be well if the Legislature would fix some limit to the payment of bounty for said soldiers and sailors of the late civil war.

All of which is respectfully submitted by

Your obedient servant,

FRANK A. BOND,

Adjutant General.

(E.)

HEADQUARTERS, 5TH REGIMENT, INFANTRY, }
Baltimore, October 30th, 1878. }

Major General FRANK A. BOND,

Adjutant General State of Maryland :

General:—I have the honor to report, that on the 14th day of October, 1878, I caused a detail to be made of officers and men, for the purpose of testing the power and accuracy of the Gatling gun.

Proceeding to the south side of the Patapsco river, the gun was tested for several hours, at a range of 200 yards, with the result designated in the fac-simile of the target, herewith enclosed.

Considering the want of experience of both officers and men in handling the piece, the result, I think, very satisfactory.

I have the honor to be,

Your obedient servant,

THOS. A. SYMINGTON,

Lt. Col. Comdg.

TARGET,

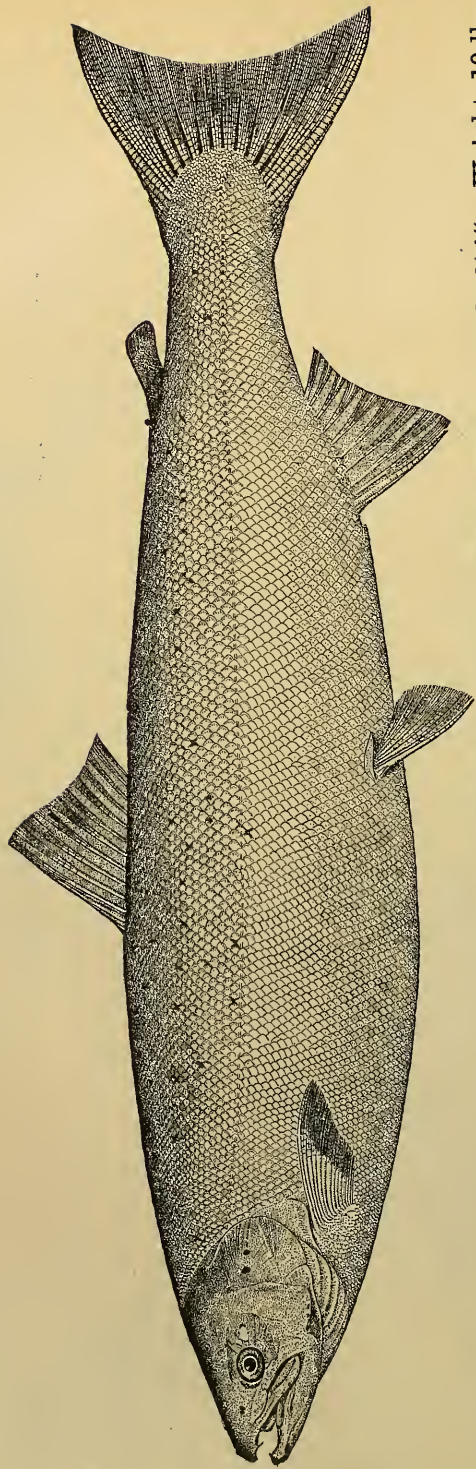

After firing 1,000 rounds at 200 yards range from Gatling Gun—944 shots on Target—48 in Bull's Eye.

(TIME CONSUMED IN FIRING 1,000 ROUNDS ABOUT 80 SECONDS.)
